How to Use This Guide

Anti-inflammatory eating focuses on whole, nutrient-dense foods that reduce systemic inflammation — the kind linked to autoimmune conditions, chronic pain, digestive issues, and metabolic dysfunction. This 30-day plan takes the guesswork out of what to eat by giving you a full day-by-day meal plan, weekly grocery lists, and a pantry-stocking guide so you can start your first week with one shopping trip.

What's Inside

- **Pantry-Stocking Guide** — A first-trip checklist with brand suggestions so you can stock your kitchen for anti-inflammatory cooking.
- **30-Day Meal Plan** — Day-by-day meals with omnivore, pescatarian, and gluten-free options noted for each meal.
- **Weekly Grocery Lists** — Four weeks of organized shopping lists with quantities. Group by grocery department for efficient shopping.
- **Recipe Section** — Full recipes for every meal in the plan with ingredients, instructions, and prep tips.
- **Symptom Tracker** — A daily log to track what you eat and how you feel, helping you identify food-symptom correlations.
- **Allergen Substitution Chart** — Swap ingredients for common allergens and intolerances without losing flavor or nutrition.

Anti-Inflammatory Eating Principles

- **Eat the rainbow.** Colorful fruits and vegetables contain different phytonutrients with anti-inflammatory properties. Aim for 5+ colors per day.
- **Prioritize omega-3s.** Fatty fish (salmon, sardines, mackerel), walnuts, chia seeds, and flaxseeds provide EPA and DHA that directly reduce inflammatory markers.
- **Limit refined sugar and ultra-processed foods.** These are the primary drivers of dietary inflammation.
- **Choose whole grains over refined.** Brown rice, quinoa, oats, and millet retain fiber and minerals stripped from white flour and white rice.
- **Spice it up.** Turmeric, ginger, cinnamon, and garlic have well-documented anti-inflammatory compounds. Use them generously.
- **Hydrate.** Aim for 8+ glasses of water daily. Herbal teas (green, ginger, turmeric) count toward hydration and add anti-inflammatory compounds.
- **Limit nightshades if sensitive.** Tomatoes, peppers, eggplant, and potatoes can trigger symptoms in some autoimmune conditions. The plan includes nightshade-free alternatives.

Pantry-Stocking Guide

Use this checklist for your first grocery trip. Stocking your pantry with these staples means most recipes in this plan can be made with just a few fresh additions each week.

Recipe Section

Below are 10 key recipes used throughout the 30-day plan. The remaining meals follow similar patterns — combine the pantry staples with fresh produce per the meal plan. All recipes serve 1–2 unless noted. Prep times are approximate.

Turmeric Oatmeal with Walnuts & Berries

■ 10 min | Serves: 1 | Tags: GF, NF, Breakfast

Ingredients:

- ½ cup gluten-free rolled oats
- 1 cup water or almond milk
- ½ tsp turmeric
- Pinch of black pepper (activates curcumin)
- 1 tbsp ground flaxseeds
- ¼ cup walnuts, chopped
- ½ cup mixed berries (fresh or frozen)
- 1 tsp honey or maple syrup (optional)

Instructions:

1. Combine oats, liquid, turmeric, and black pepper in a small pot. Bring to a simmer.
2. Cook 5–7 minutes, stirring, until creamy.
3. Stir in ground flaxseeds. Transfer to a bowl.
4. Top with walnuts, berries, and a drizzle of honey if using.

■ Tip: Black pepper increases curcumin absorption by up to 2000%. Never skip it with turmeric.

Baked Wild Salmon with Quinoa & Roasted Sweet Potato

■ 35 min | Serves: 2 | Tags: O, P, GF, Dinner

Ingredients:

- 2 wild-caught salmon fillets (5 oz each)
- 1 medium sweet potato, cubed
- ½ cup quinoa
- 1 tbsp olive oil
- ½ tsp smoked paprika
- ½ tsp garlic powder
- Juice of ½ lemon
- Salt & pepper to taste
- 1 cup water for quinoa

Instructions:

1. Preheat oven to 400°F (200°C).
2. Toss sweet potato cubes with olive oil, paprika, and garlic powder. Roast 25 min.
3. Rinse quinoa, combine with water, simmer 15 min until water absorbs.
4. Place salmon on a lined tray, season with salt, pepper, and lemon juice. Bake 12–15 min.
5. Plate salmon alongside quinoa and sweet potato.

■ *Tip: Wild salmon has 3x more omega-3s than farmed. If budget is tight, use canned wild salmon.*

Coconut Curry Lentils with Cauliflower Rice

■ 30 min | Serves: 3 | Tags: GF, NF, Dinner

Ingredients:

- 1 cup red lentils, rinsed
- 1 can (14 oz) coconut milk
- 1 cup water
- 1 onion, diced
- 3 cloves garlic, minced
- 1 tbsp grated ginger
- 1 tbsp curry powder
- 1 tsp turmeric
- ½ tsp cumin
- 1 head cauliflower, riced
- 2 tbsp olive oil
- Salt to taste
- Fresh cilantro to garnish

Instructions:

1. Heat oil in a pot. Sauté onion 5 min until translucent.
2. Add garlic, ginger, curry powder, turmeric, cumin. Stir 1 min until fragrant.
3. Add lentils, coconut milk, water, and salt. Bring to boil, reduce to simmer. Cook 20 min until lentils break down.
4. Meanwhile, sauté riced cauliflower in a dry pan 5–7 min until tender.
5. Serve curry over cauliflower rice, garnished with cilantro.

■ *Tip: Red lentils cook in half the time of green/brown. This recipe freezes well — make a double batch.*

Ginger-Turmeric Chicken Stir-Fry with Brown Rice

■ 25 min | Serves: 2 | Tags: O, GF, Dinner

Ingredients:

- 2 chicken breasts, sliced
- 1 cup brown rice
- 2 cups water
- 1 head bok choy, chopped
- 1 carrot, julienned
- 2 tbsp coconut aminos
- 1 tbsp grated ginger
- 1 tsp turmeric
- 2 cloves garlic, minced
- 2 tbsp avocado oil
- Sesame seeds to garnish

Instructions:

1. Cook brown rice: combine with water, bring to boil, simmer 35 min.
2. Heat 1 tbsp oil in a wok or large pan. Stir-fry chicken 5–6 min until golden. Remove.
3. Add remaining oil, garlic, ginger, turmeric. Stir 30 seconds.
4. Add bok choy and carrot. Stir-fry 3 min.
5. Return chicken, add coconut aminos, toss 1 min.
6. Serve over brown rice, topped with sesame seeds.

■ *Tip: Coconut aminos are a soy-free, lower-sodium alternative to tamari/soy sauce.*

Chia Pudding with Mango & Hemp Hearts

■ 5 min + overnight | Serves: 1 | Tags: GF, NF, Breakfast/Snack

Ingredients:

- 3 tbsp chia seeds
- $\frac{3}{4}$ cup almond milk (unsweetened)
- 1 tsp maple syrup
- $\frac{1}{4}$ tsp vanilla extract
- $\frac{1}{2}$ cup diced mango
- 1 tbsp hemp hearts

Instructions:

1. Whisk chia seeds, almond milk, maple syrup, and vanilla in a jar.
2. Refrigerate overnight (or at least 4 hours), stirring once after 30 min.
3. Top with diced mango and hemp hearts before serving.

■ *Tip: Chia seeds provide omega-3s, fiber, and protein. Prep 3 jars at once for grab-and-go breakfasts.*

Mediterranean Quinoa Salad with Olives & Cucumber

■ 20 min | Serves: 2 | Tags: GF, NF, Lunch

Ingredients:

- 1 cup quinoa
- 2 cups water
- 1 cucumber, diced
- ½ cup Kalamata olives, pitted
- 1 cup cherry tomatoes, halved
- ¼ red onion, thinly sliced
- 3 tbsp olive oil
- Juice of 1 lemon
- 1 tsp dried oregano
- Salt & pepper to taste
- ¼ cup fresh parsley, chopped

Instructions:

1. Cook quinoa: rinse, combine with water, simmer 15 min. Fluff and cool.
2. Combine cucumber, olives, tomatoes, onion in a large bowl.
3. Whisk olive oil, lemon juice, oregano, salt, and pepper.
4. Toss quinoa and vegetables with dressing. Top with parsley.

■ *Tip: This keeps 3–4 days refrigerated. Great for meal prep lunches.*

Turmeric Chicken Soup with Root Vegetables

■ 45 min | Serves: 4 | Tags: O, GF, NF, Dinner

Ingredients:

- 2 chicken thighs, bone-in
- 1 onion, diced
- 3 carrots, sliced
- 2 parsnips, sliced
- 1 sweet potato, cubed
- 3 cloves garlic, minced
- 1 tbsp turmeric
- 1 tsp ginger
- 6 cups chicken broth
- 2 tbsp olive oil
- Salt & pepper to taste
- Fresh thyme

Instructions:

1. Heat oil in a large pot. Sear chicken thighs 4 min per side. Remove.
2. Add onion, garlic, ginger, turmeric. Sauté 3 min.
3. Add carrots, parsnips, sweet potato. Cook 5 min.
4. Return chicken, add broth and thyme. Simmer 25 min.
5. Shred chicken off the bone, return to pot. Season and serve.

■ *Tip: This soup is deeply nourishing during flare-ups. Freeze individual portions.*

Lentil & Sweet Potato Stew

■ 40 min | Serves: 4 | Tags: GF, NF, Lunch/Dinner

Ingredients:

- 1 cup brown lentils, rinsed
- 1 large sweet potato, cubed
- 1 onion, diced
- 3 cloves garlic
- 1 tbsp grated ginger
- 1 tsp cumin
- 1 tsp smoked paprika
- 4 cups vegetable broth
- 2 tbsp olive oil
- 2 cups kale, chopped
- Salt to taste

Instructions:

1. Heat oil, sauté onion 5 min. Add garlic, ginger, cumin, paprika. Stir 1 min.
2. Add lentils, sweet potato, and broth. Simmer 30 min until lentils are tender.
3. Stir in kale, cook 3 min until wilted. Season and serve.

■ Tip: One of the most budget-friendly anti-inflammatory meals. Under \$2 per serving.

Green Smoothie — Spinach, Banana, Flax, Almond Milk

■ 5 min | Serves: 1 | Tags: GF, NF, Breakfast/Snack

Ingredients:

- 2 cups fresh spinach
- 1 banana
- 1 tbsp ground flaxseeds
- 1 cup unsweetened almond milk
- ½ cup water
- 1 tsp maple syrup (optional)
- Ice cubes

Instructions:

1. Add all ingredients to a blender.
2. Blend until smooth, 30–60 seconds.
3. Add ice and blend again if desired.

■ Tip: Add ½ inch fresh ginger for an extra anti-inflammatory boost.

Miso-Glazed Cod with Millet & Steamed Greens

■ 25 min | Serves: 2 | Tags: P, GF, NF, Dinner

Ingredients:

- 2 cod fillets (6 oz each)
- 2 tbsp white miso paste
- 1 tbsp coconut aminos
- 1 tsp grated ginger
- 1 tsp rice vinegar
- ½ cup millet
- 1 cup water
- 4 cups bok choy or spinach
- 1 tsp sesame oil

Instructions:

1. Cook millet: toast in a dry pan 2 min, add water, simmer 18 min.
2. Whisk miso, coconut aminos, ginger, and vinegar. Brush on cod.
3. Broil cod 8–10 min until flaky and glazed.
4. Steam greens 3 min, toss with sesame oil.
5. Plate cod with millet and greens.

■ Tip: Use chickpea miso for a soy-free, gluten-free option. It has the same probiotic benefits.

Symptom Tracker

Use this daily log to track what you eat and how you feel. Over 30 days, patterns emerge that help you identify which foods support you and which may trigger symptoms. Bring this log to your healthcare appointments for a more productive conversation.

* Ghee is lactose-free and casein-free, making it tolerated by many with dairy sensitivities. If you have a severe dairy allergy, use coconut oil or olive oil instead.

After Your 30 Days

After completing 30 days, review your symptom tracker. Most people notice improvements in energy, digestion, and joint comfort within 2–3 weeks. Use the patterns you've identified to build your own ongoing meal rotation — you now have the recipes, grocery lists, and pantry knowledge to continue anti-inflammatory eating as a sustainable lifestyle.

If you're reintroducing foods after an elimination phase, add one food group at a time, wait 3 days, and track symptoms. This methodical approach helps you identify specific triggers.
